

AXA Retail Product Strategy Document:

AXA Advanced

AXA Advanced

The AXA Retail Product Strategy Document will be reviewed at least annually or earlier where required following regulatory changes that affect Product Governance, or changes in business structure or roles and responsibilities outlined in the Retail Product Governance Policy

Target Market and Product Fair Value Statements

The purpose of this document is to explain the identified target market and the expected distribution strategy for the Insurance product manufactured by AXA Insurance. It also outlines our approach to Product Oversight and Governance to demonstrate how we design, monitor, and review our products to ensure they continue to provide fair value and meet the needs, characteristics and objectives of the target market including vulnerable customers.

Product Oversight and Governance

AXA UK's Product Governance Policy sets out the standards that AXA Retail is required to implement to ensure the achievement of fair value and good customer outcomes by having robust product oversight and governance arrangements, systems, policies, and procedures in place, which encourage a business culture with customers' interests at its core.

- We identify, define, and assess our target markets at an appropriate level, based on the nature and complexity of our products
- We undertake appropriate testing of our new products before launch, to make sure they meet our customers' needs and provide fair value
- The design and performance of all our new, existing, and legacy products are subject to regular assessment and review to ensure products provide fair value and that there is a continuing customer-centric focus, achieving good customer outcomes
- We consider the needs, characteristics, and objectives of customers with characteristics of vulnerability at all stages of the design process to ensure the product meets their needs
- The features, nature and complexity of our products are carefully matched to our intended distribution channels to ensure they reach our identified target market

These requirements are in place to ensure that all AXA UK customers receive fair value and that good customer outcomes are delivered in line with AXA UK's defined customer outcome statements.

Target Market Statements

Target Market Statements provide information about all the AXA Insurance products distributed. This includes:

- The key features and optional covers associated with our products
- Who our products are designed for and who they are not designed for
- How our products should be distributed
- The complexity of our products
- How to ensure that our product provides fair value to customers as intended
- The controls and testing in place for our products
- Whether the target market is inherently more likely to be vulnerable
